Do-Ga

IT:

Do-Ga è molto più di una semplice linea di sedute; la ricerca dei materiali naturali ne costituiscono il cuore pulsante.

Studiata con precisione per offrire un'ampia gamma di configurazioni che si integrano con eleganza negli spazi pubblici indoor, questa linea si distingue per le sue forme avvolgenti e le superfici levigate regalando un'immediata sensazione di solidità e comfort. La struttura portante, pensata per essere leggera ma incredibilmente stabile, sorregge con grazia, esalta la nobiltà delle doghe e la piacevolezza al tatto del legno naturale.

Con DO-GA, il design e la funzionalità si fondono in un connubio perfetto. Disponibile in una vasta gamma di configurazioni e finiture, DO-GA offre agli architetti e ai progettisti la libertà di integrare le sedute in svariate soluzioni.

Standard slim Double slim Be bold

ENG:

Do-Ga is much more than just a seating collection; the research and selection of natural materials are the core of it.

This collection stands out for its enveloping shapes and smooth surfaces, providing an immediate sense of solidity and comfort. A wide range of configurations is carefully thought out and designed to elegantly fit into indoor public spaces. The supporting structure is engineered to be lightweight yet incredibly stable. It gracefully upholds the slats, bringing out the natural wood's noble character for a pleasant tactile experience.

Design and functionality merge in perfect harmony with DO-GA. Available in a wide variety of configurations and finishes, DO-GA gives architects and designers the freedom to integrate seating into different solutions.

Up-Cyl

IT:

Una rivoluzionaria idea di arredo modulare che pone al centro del suo design la responsabilità ambientale. Caratterizzata da linee che richiamano la creatività vivace degli anni 80. Abbina la plastica rigenerata a materiali naturali duraturi e riciclabili, contribuendo in modo significativo all'economia circolare. La struttura portante, leggera ma robusta, dona stabilità agli elementi. Il cuore della collezione è rappresentato da una seduta realizzata con plastica riciclata da scarti industriali e da raccolta differenziata.

UP-CYL è disponibile in varie configurazioni e colorazioni. Offre agli Architetti e ai Progettisti la flessibilità necessaria per integrare le sedute in molteplici contesti. Una proposta all'avanguardia che unisce design accattivante, funzionalità e un forte impegno verso la sostenibilità ambientale. Proprio perché, oltre per dare nuova vita ai materiali utilizzati, UP-CYL è studiata per durare a lungo anche negli ambienti più affollati.

Bench

ENG:

A revolutionary modular furnishing concept that places environmental responsibility at the heart of its design. This collection is inspired by "The Eighties" vibrant creativity. It combines regenerated plastic with durable and recyclable natural materials, making a significant contribution to the circular economy. The lightweight yet sturdy framework ensures stability for all the elements. The core of this collection is a seat made from recycled plastic sourced from industrial waste and waste sorting.

UP-CYL is available in various configurations and colors, offering architects and designers the flexibility to integrate the seating into a wide range of environments. An innovative solution that blends striking design, functionality, and a strong commitment to environmental sustainability. Beyond giving new life to the materials used, UP-CYL is designed to last, even in high traffic spaces.

Bo-Bo

IT:

Una nuova linea di sedute sofisticata che combina l'eleganza a curve morbide e moderne.

Questa collezione aggiunge dinamicità e stile agli spazi pubblici, grazie alle linee pulite della struttura e al design accattivante. La struttura in acciaio verniciato conferisce solidità alle panchine, bilanciando leggerezza e stabilità, mentre la seduta facilmente rifoderabile in pelle sintetica offre comfort e raffinatezza.

Le curve morbide non solo aggiungono un tocco distintivo, ma contribuiscono anche a creare un'esperienza di seduta accogliente. BO-BO, progettata in diverse configurazioni e colorazioni, offre flessibilità e facilità di integrazione in ogni contesto urbano.

Bench

ENG:

A new line of sophisticated seating that combines elegance with soft, modern curves.

This collection brings dynamism and style to public spaces, thanks to the clean lines of its structure and its striking design. The painted steel frame gives strength to the benches, balancing lightness and stability. The faux leather seat is slipcoverable and provides both comfort and refinement.

The soft curves not only add a distinctive touch but also enhance the seating experience by making it more inviting. Designed in various configurations and colors, BO-BO offers both flexibility and ease of integration for each urban setting.

So-So

IT:

Una soluzione di pouf concepita per luoghi ad alta frequentazione.

Il suo design distintivo include uno zoccolo in acciaio verniciato a polveri che, oltre a caratterizzarne il design, garantisce una durata ottimale in qualsiasi contesto d'uso. Grazie alla sua versatilità e modularità, SO-SO trasforma ogni spazio in accoglienti aree relax, combinando funzionalità e stile in modo impeccabile.

Pad Dew

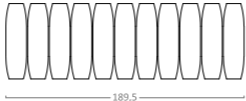

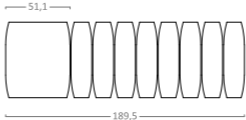

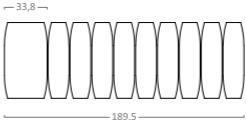

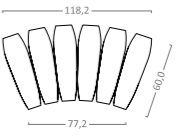

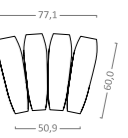

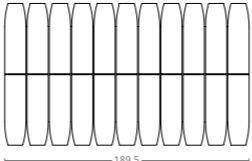

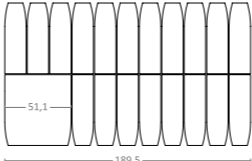

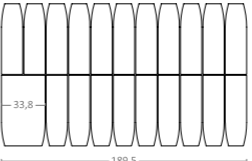

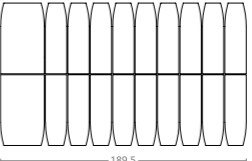

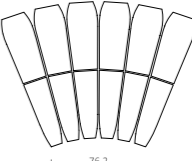

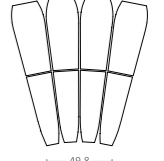

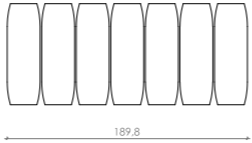

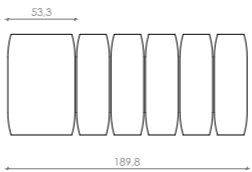

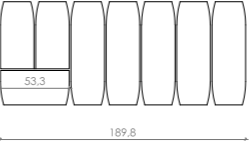

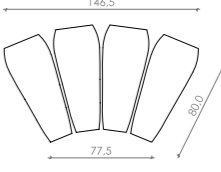

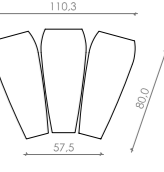

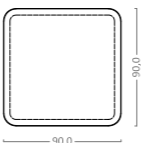

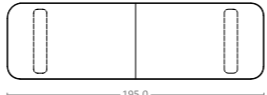

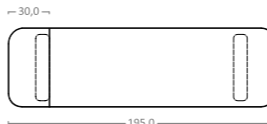

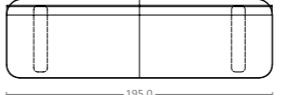

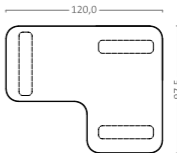

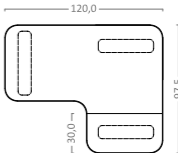

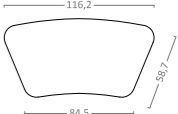

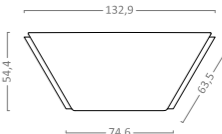

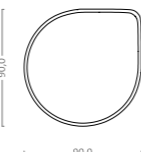

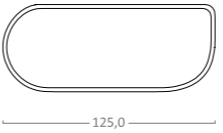

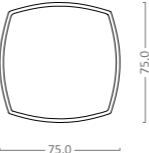

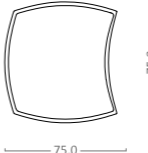

ENG:

A pouf solution designed for high-traffic areas.

Its distinctive design features a powder-coated steel base that not only enhances its aesthetic appeal but also ensures optimal durability in any setting. Thanks to its versatility and modularity, SO-SO transforms any space into a welcoming relaxation area, seamlessly combining functionality and style.
